

LUCY > 3.1 allows the user to quickly create a copy of one or multiple scenario templates (settings/scenario-templates). To create a copy you first need to select the template(s) and then click on "action". Under the action menu you will find a "copy" button:

**Scenario Templates**

**Awareness Only Templates**  
Awareness only scenario templates.

**Web Based Templates**  
Templates, where user is asked to click on a link in a mail and then gets redirected to a landing page hosted on LUCY. This can be a static web page with informative character or a web page where the user can enter confidential information.

Template Name	Date	Action Buttons
Blank	01.09.2016 04:22	Edit Preview Message Preview Lure
Contest	01.09.2016 04:22	Edit Preview Message Preview Lure

Once activated LUCY will create a 1:1 copy of the template and add a the classification (copy) next to the template name:

Template Name	Date	Action Buttons
Contest	01.09.2016 04:22	Edit Preview Landing Preview Message Preview Lure
Contest (copy)	01.09.2016 12:55	Edit Preview Landing Preview Message Preview Lure
