

About Benchmarks

You can set a Benchmark for a campaign (when you start a campaign). The Benchmark will allow you to compare results from different campaigns and sectors with each other (in case you use LUCY for performing phishing campaigns against multiple clients). The benchmark uses an internal database and no data every gets submitted to our server. Only if you use LUCY for the very first time, you will get asked once, if you want to participate in submitting anonymous data. The default value is no submission of anonymous data. Your answer will get stored within the advanced settings:

| | |
|---------------------------------|--|
| | <input checked="" type="checkbox"/> Enable Ajax Updating |
| Ajax Update Period (seconds) | <input type="text" value="5"/> |
| Export Data Separator | <input type="text" value="Tab"/> ? |
| Export Double Quotes | <input type="checkbox"/> Enclose In Double Quotes ? |
| Campaign Approval Period (days) | <input type="text" value="5"/> ? |
| Spam Test | <input type="checkbox"/> Use Full Blacklist ? |
| Recipients | <input type="checkbox"/> Generate Short Recipient Links ? |
| Let's Encrypt | <input type="checkbox"/> Autorenew |
| <hr/> | |
| Campaigns | <input type="checkbox"/> Disable Campaign Checks |
| <hr/> | |
| Benchmark Sharing | <input type="checkbox"/> Send Anonymous Benchmark Data |
| | <input checked="" type="checkbox"/> Don't ask to send Anonymous Benchmark Data |

By default the industry field is empty. The more tests you do, the easier it will be in future to compare the results with each other if you allocate a Benchmark for each test. Benchmark results are not shared among LUCY installations. No campaign data will be ever transmitted to external servers.

New Campa...

Campaign Status: Not Started

New Campaign

Name

Lucy Phishing Campaign

Client

Please select...

Setup Mode

☐ Expert Setup (Manual Configuration)

☒ Start with Predefined Campaign Template

☐ Start with Default Campaign Template

☐ Risk Assessment

☐ Mail & Web Test

Industry

N/A

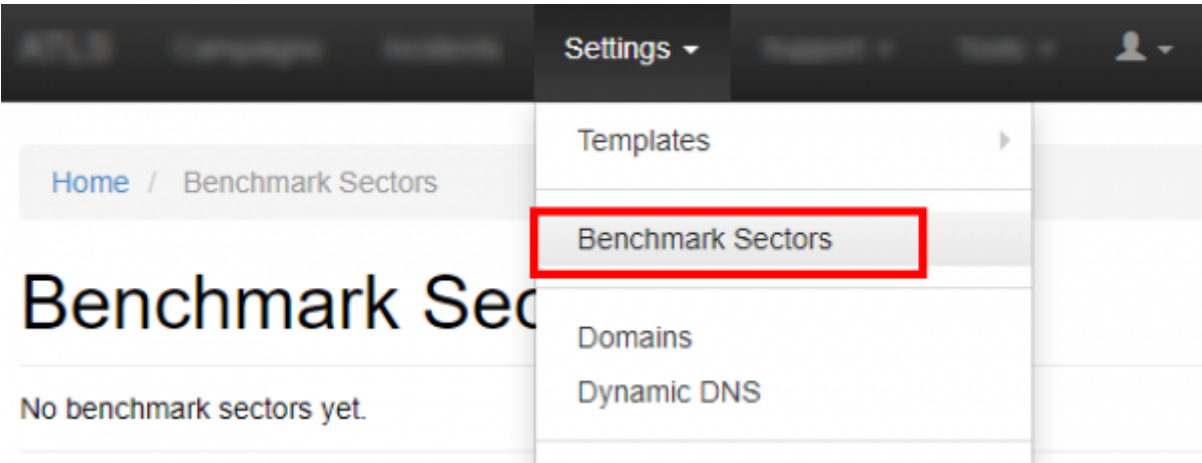

Notes

☐ Enduser Profiles Enabled

☐ Track Responses

☐ Email Tracking

Your Benchmark values can be edited under "**Settings\Benchmark Sectors**".

How to add custom sectors

You can add new benchmark sectors by clicking on the "new" button at top right:

Home / Benchmark Sectors

43 new templates available! [Download](#)

Benchmark Sectors

+ New

✕ Delete

| Sector | Clicked | Submitted | |
|---------------------------------|---------|-----------|---|
| <input type="checkbox"/> 1 test | 0 % | 0 % | ✕ |
| <input type="checkbox"/> A | 50 % | 50 % | ✕ |
