

Introduction

Lucy comes with different awareness videos. The video's are stored locally as a part of the LUCY application in the awareness section. They are embedded in different awareness templates (e.g. video gallery, mixed interactive quiz, awareness video's etc.). Each video can be customized (logo, voice etc.). You can use the video editing scripts and merge scenes from different videos into a new video or ask us to create new video scenes etc.

How to request changes?

If you want only a few selected scenes to be altered, choose the according scene and provide us with the customized text and a draft of the desired animation. Within the field "animation description" you can specify the details of the animation. If you only want the logo at the start and end to be changed, please provide us with a high quality image of your logo (300 DPI).

Price calculation

- **Video White Label:** Removal of watermark, adding custom client logo at start and end of video: USD 300
- **Translation:** The translation (new voice over and translation of all video visuals) starts with USD 350 per video (depends on video lenght)

Example Video's (please mail info@lucysecurity.com for a full list of videos)
