End User e-learning portal

2024/05/01 18:30

Users might not have time to finish an awareness course right away. They have the ability to reschedule the training (see this WIKI). But you have also the ability to create a login page for your end users where they can login and access their custom training links at any time, without the need to resend an awareness mail.

Where to enable the e-learning end user portal?

The portal can be enabled under "Base Settings" within the campaign page:

Configuration			
Base Settings	Г	EndUser Profiles Enabled	
Awareness Settings		Track Responses 9	
Schedule		Email Tracking 9	
Recipients	Antivirus/Firewall Protection	off	~ 0

How are the awareness users created?

LUCY automatically creates the end user login profiles for each user, that is marked to receive an awareness training within a campaign (phishing or awareness only campaign).

Where can a user login to e-learning portal?

The login is always created under the directory /user/ on your server. So if your server address is https://my.lucyserver.com, the end user e-learning portal login will be under https://my.lucyserver.com/user/

	Login	
[your logo here]	E-mail	
	Password	Forgot?
	Language	English
		Login

How are the login credentials submitted to the user?

With the first training email sent out, the user will receive a text attachement (in case the end user training portal is enabled) that contains the link to the training portal and a password

Do. 21.09.201 Your N e-Learnin An Oliver Muenchow	^{17 11:21} ame <yourname@example.com> g: Security Awareness Basics</yourname@example.com>				
password.txt 145 Bytes					
Dear Oliver Meenchow We sent an email to a n the user do something o Only working togethere	umber of employees this morning. The goal of this e-mail was to test th or give information. It seems that you did not spot the scam. an we keep our IT security at a high level. Therefore, we prepared a sl	he behaviour hort training "	of emp security	loyees on y awarene	receipt of a "phishing email". This iss basics" for you under this <u>link</u> .
Kind Regards Your Name Your company	<pre>password.txt - Editor Datei Bearbeiten Format Ansicht ? URL: https://91.228.53.87/user Password: affMATaQr2</pre>	-		×	

What can the user do on the e-learning end user portal page?

After the login, the user can:

- change his password
- view his training history
- view his training score
- compare his score with others

- create training certificates
- access his reputation profile
- access the custom training link (the training name is highlighted and can be accessed via browser)

Known Issues

In LUCY < 4.2 end users cannot be mass selected/deleted. In order to delete them all, you need to issue the following command via shell:

cd /tmp

sudo -u postgres psql phishing -c 'UPDATE users SET is_deleted=TRUE where role_id=5'
