Keyboard Shortcut for Report

2022/09/15 23:53

For a more convenient way to report the mail, there is a way to create a keyboard shortcut in Desktop Outlook.

First, right-click on the Phishing Addon Button and add it to Quick Access Toolbar.

The small icon would appear in the Toolbar in the left top corner.

| 🗄 🕤 🕘 | | | | | |
|------------------------|--|-----------|----------------|--------------------|--------------------|
| File Hor | Report phishing | ew | Help | | |
| New New Email Items | Use this button to forward suspicious e-mails to you department. | - N | Reply F All | Forward More * | Report phishing |
| New | Delete | | Re | espond | Security 🕤 |
| File | 3 Home Send / R | eceive Fo | older | View Help | |
| New Ne Email Iten | | | 0 Inchive | Reply Reply All | \square |
| New | | Delete | | | Respond |
| Drag You | r Favorite Folders Hi | | ch Curi | rent Mailbox 🛛 🖌 | Currer |

By pressing Alt the quick access indicator will show which button is assigned for the Report shortcut.

Selecting an email and pressing Alt+3 will report the email
