LUCY Partner Selling Process

Step 1: Place an Order

You can place the order via email or as an alternative you can place an order using this order form. Please include in your order the following information:

- Type of License (variable vs. fix priced license)
- Your Company Details
- Preferred payment method (PayPal, Wire Transfer)
- Optional Modules (VPS rent)

Step 2: Download and install the software & components

- Download the latest LUCY version here: http://www.lucysecurity.com/resources/download/.
- Then follow our installation instructions (VMware, Amazon, Linux, Open Virtualization).
- Make sure you apply all patches
- Download all latest templates
- Reserve a domain name in LUCY
- Create a user to access LUCY

Step 3: Send us the workstation Key

Once LUCY is installed, you need to send us the workstation ID via mail. The ID can be found here: http://www.lucysecurity.com/PS/doc/dokuwiki/doku.php?id=how_to_activate_lucy#where_to_find_the_workstation_id We will be able to activate the installation within 4 hours.

Step 4: Download the license file

The license file we create on a centralized server can be downloaded by clicking "check for updates".
