

# Pinned campaigns

"Pinned campaigns" are used to group different campaigns within a view, similar to browser favorites. As soon as you have activated the checkbox "pinned" within the campaign, the campaign will appear on the dashboard within the according frame.

**Step 1:** Select "pinned" within the campaign settings

The screenshot shows the 'Conditional Awareness' campaign settings page. The page is divided into several sections: Results, Configuration, Advanced Settings, and Logs. The 'Pinned' checkbox is located in the 'Advanced Settings' section, under the 'User Settings' tab. It is currently checked and highlighted with a red box. The 'Save' button is located below the 'Pinned' checkbox.
