

We work hard in making LUCY a secure product. Here is a quick overview of the most important security topics:

- **Restricted network based access to LUCY:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=firewall_security_settings
- **Secure the user access:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=password_policies_login_protection_strong_authentication
- **Restrict the user access:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=user_management
- **Secure Setup of LUCY:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=setting_up_a_lucy_master_slave
- **Secure (and anonymous) storage of data:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=confidentiality_of_campaign_data
- **Secure communication channels:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=ssl_configuration
- **Transparent network communication:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=network_communication_-_lucy_-_internet
- **Secure support:** http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=remote_ssh_support
- **Updates of the application and OS:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=update_lucy
- **Custom Admin URL creation:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=custom_admin_url_title
- **Ability to monitor all system activities:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=log_files_in_lucy
- **Ability to monitor the system in real time:**
http://phishing-server.com/PS/doc/dokuwiki/doku.php?id=system_performance_monitoring

Additionally we perform regular external (anonymous) penetration tests according to the OWASP testing categories (<https://www.owasp.org/>). If you still should experience a security issue, please contact us under support@lucysecurity.com.
